RESONANT · PALIS / FLARED · REV.02

Two woods. One precise form.

01 · SMOKED WENGE

PALIS / OFF lens · photo default ON

02 · AFRICAN PADAUK

3 + 1 maple lines · photo default lens OFF

CLIENT PHOTOGRAPH / SAME CAD MESH

Same-angle photo vs. 3D CAD proof

HANDLE 2.JPEG

CYCLES · 128 SAMPLES

Cheek inlays / Padauk gaps	3 × 1.05 / 1.05 mm
Single longitudinal flank line	1.05 mm
Cut top / thumb scoop grain	Continuous XY UV
Oak / Beech cap + Maple rim	5.50 / 0.90 mm

White Resonant medallion from the original. Photo aligned by handle landmarks; the semi-finished neck is trimmed to the final CAD shape.

102.00 MM BOUNDARY

HANDLE 1.JPEG · FRONTAL

ORIGINAL MEDALLION

LOGO.JPEG · 1:1 ARTWORK

SHEET		LIVE DEMO	SOURCE GEOMETRY
RB-01	RESONANT · REV.02 · 3D BLADE CONFIGURATOR · #2800440 TWO HANDLE DESIGNS, BUTT CAP AND 5-PLY EDGE — ONE CAD SOURCE	https://frank20190926.github.io/resonant-blade-3d-configurator/	Flared.step · Fusion 360 v16

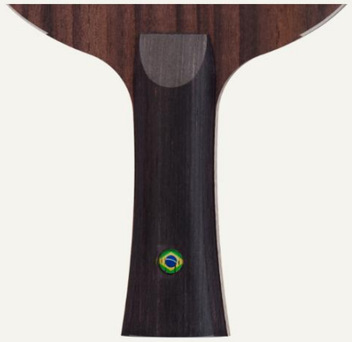

PHOTO TEXTURES / UNMODIFIED CAD ENVELOPE

Four inspection views

01 · SERIAL + LASER TEXT

S02025148 retained; custom line 5.80 mm beneath.

02 · BACK FACE + CIRCULAR FLAG

Original Brazil badge, CAD Y = 25.50 mm.

03 · CAP + CAD-EDGE MAPLE RIM

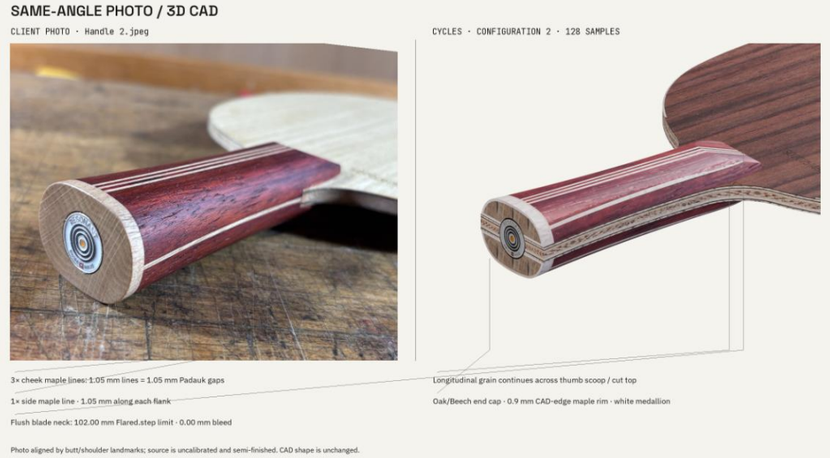

0.90 mm inward offset of both curved CAD halves.

04 · FIVE-PLY EDGE + FLUSH NECK

Original 6.00 mm blade; 0.00 mm handle bleed.

Source / geometry checks

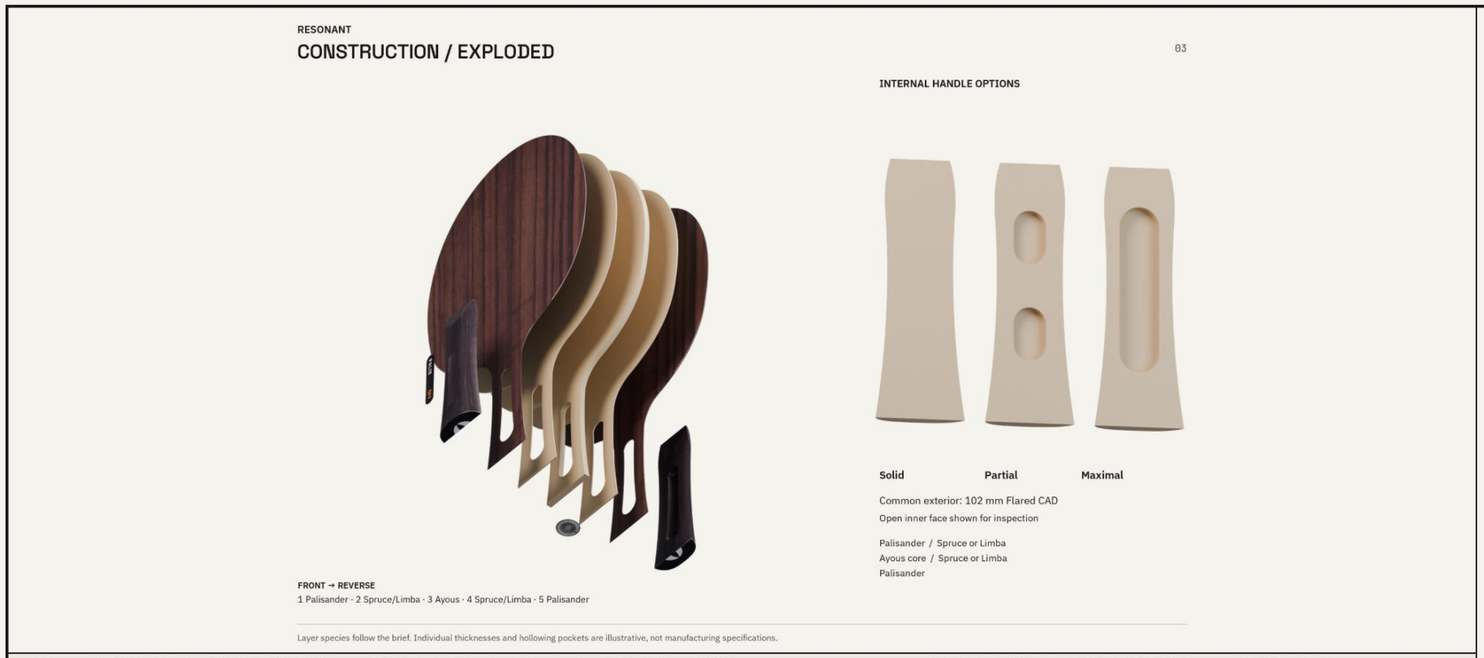

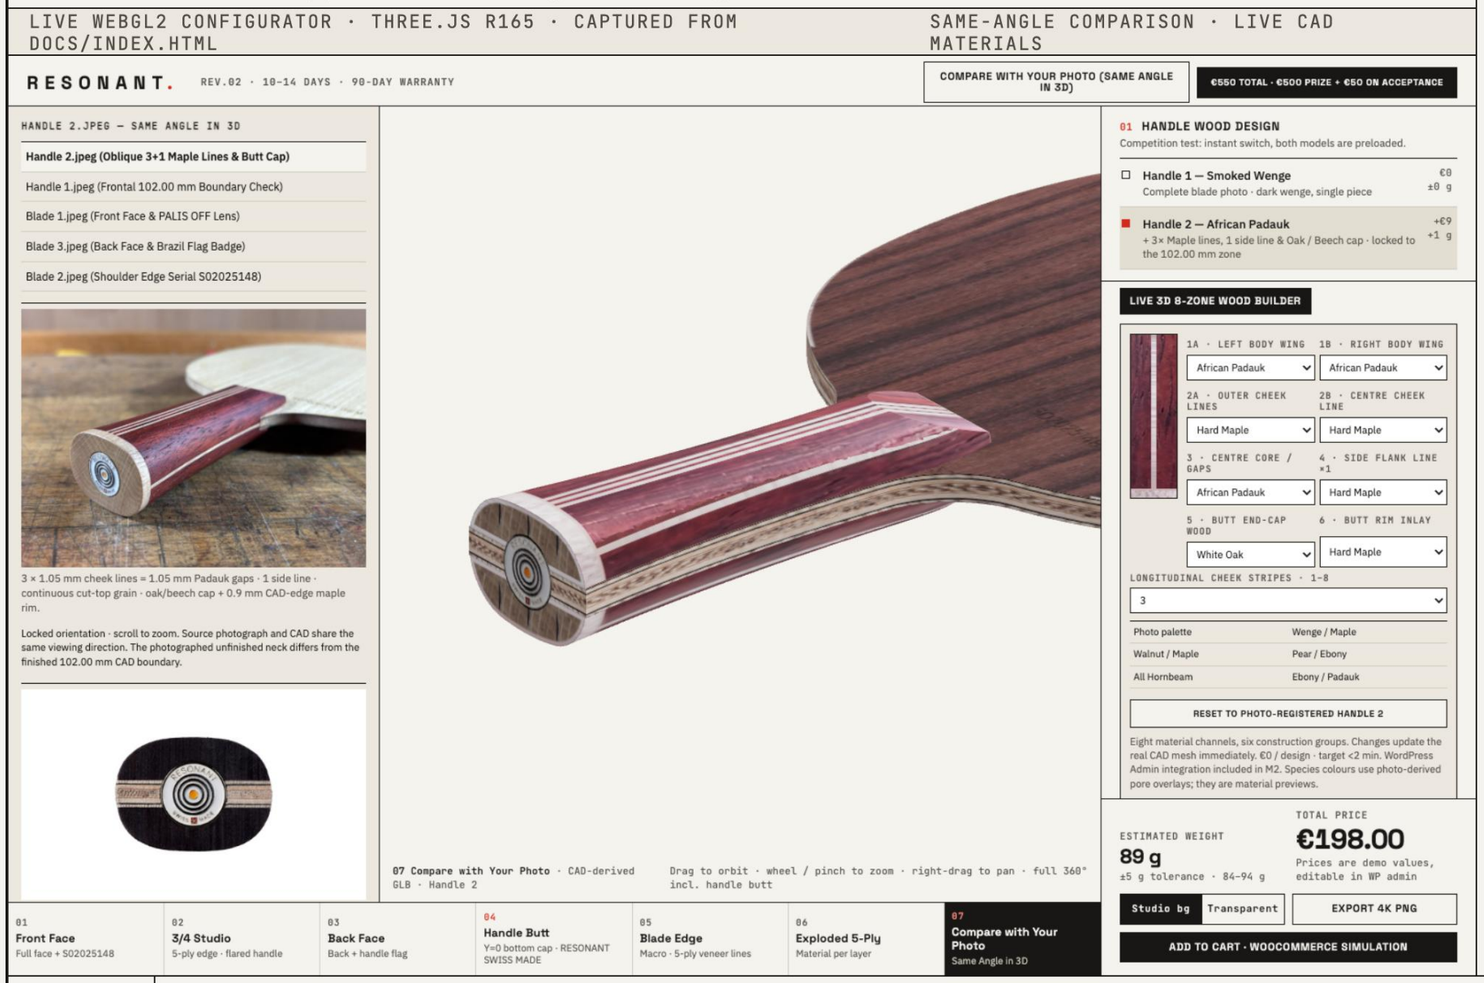

FLARED.STEP MEASUREMENT	MM
Blade M · width × length × thickness	151 × 258 × 6
Each half handle · width × length × depth	35.866 × 102 × 10
Cheek lines / gaps / side line	1.05 / 1.05 / 1.05
Cap transition / seam band / edge rim	5.50 / 0.85 / 0.90
Handle pattern bleed onto blade	0.00

FIVE EMPLOYER CHECKPOINTS

CHECKPOINT	EVIDENCE / LOCATION
01 · Geometry, grain, cap	3 + 1 maple lines; planar cut top; CAD contour rim
02 · Photo comparison	Same camera in Cycles / WebGL; five reference tabs
03 · Personalization + builder	Lens, serial, laser, flag; eight live material channels
04 · Fixed-price scope	€500 award + €50 after acceptance = €550
05 · Review package	RB-01–04, A3 PDF, GLBs, Blender and source ZIP

CAD dimensions are measured. Inlay and rim widths are specified texture dimensions. Photos are uncalibrated; hidden grain is reconstructed. WooCommerce is the quoted implementation scope, not a deployed backend.

How a new handle wood design is published

A · NO-CODE 8-ZONE LIVE 3D BUILDER

1a / 1b	Left / right body wings
2a / 2b	Outer / centre cheek lines, up to 8 stripes
3 / 4	Centre core / single flank line
5 / 6	Butt end-cap / CAD-following rim

Eight species; high-resolution Canvas textures update the real 3D mesh immediately. This live material builder is included in WordPress Admin delivery for all four handle shapes.

Time `< 2 min per design` Cost €0

LIMIT: STRAIGHT STRIPES ONLY; NO DIAGONAL OR INLAID MARQUETRY

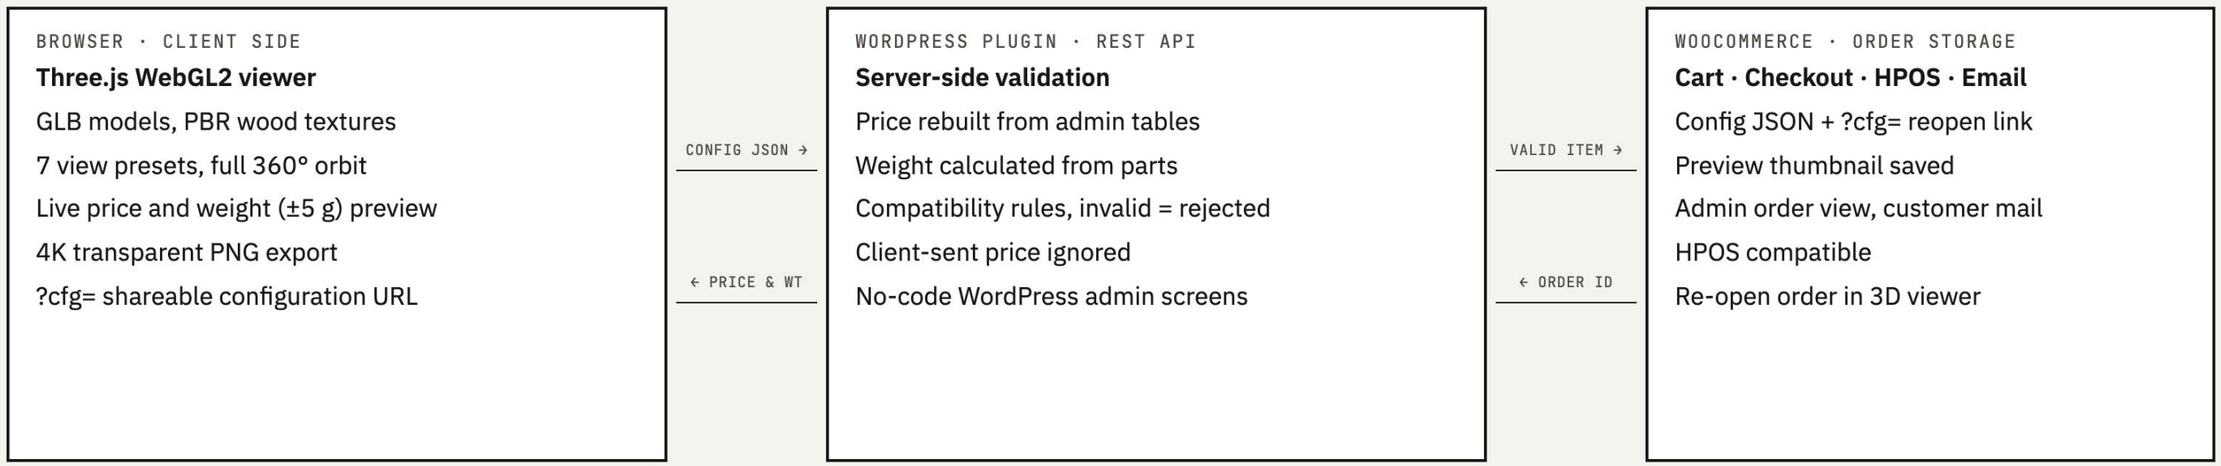

B · PHOTO-TO-CAD UV PROJECTION

Resonant sends 2 to 3 photos of a finished handle plus the existing Fusion 360 shape. We unwrap, register and crop them to the handle UV boundary, then Resonant publishes from the same admin screen.

Time `~30 min per design` Cost €12 per design

BATCH OF 10 DESIGNS ACROSS ALL 4 SHAPES: €100 EUR

WooCommerce plugin architecture & fixed-price proposal

€550 EUR ALL-INCLUSIVE · 10–14 DAYS · 2 MILESTONES

MILESTONE	DAYS	DELIVERABLE	EUR
M1 · Contest prize 100% covered by award	1–8	Full 3D core; STEP/F3D → GLB for 4 blades × 4 shapes; 10 wood designs; exploded + hollowing; 4K PNG; Live 8-Zone Wood Builder	500
M2 · Final acceptance Only €50 net remaining	9–14	WordPress / WooCommerce; server validation; Cart / Checkout / HPOS / Email JSON + thumbnail + reopen link; no-code admin; source + Blender / GLB handover; 90-day warranty	50
Fixed total price, all inclusive (no recurring fees)			550

4 RESONANT BLADE MODELS & INTERNAL HANDLE HOLLOWING SUPPORTED IN DATA MODEL

BLADE MODEL	FACE SIZE & PLY CONSTRUCTION	HANDLE HOLLOWING OPTIONS	DEMO WEIGHT	DEMO EUR
PALIS OFF (Contest Demo)	Size M (151×156 mm) · 5-Ply Rosewood–Limba–Ayous	Solid / Partial / Maximal	88 g ±5 g	189
OPUS 1 ALL+	Size M · 5-Ply Walnut–Spruce–Ayous	Solid / Partial / Maximal	84 g ±5 g	169
WAVE C OFF+	Size L · 5+2 Inner Carbon · Koto–Carbon–Ayous	Solid / Partial / Maximal	90 g ±5 g	219
PULSE C DEF	Size DEF · 5-Ply Limba–Willow–Balsa	Solid / Partial / Maximal	79 g ±5 g	179

HANDLE SHAPES (×4)
Flared · Straight · Anatomical · Penhold (compatibility per blade)

INTERNAL HOLLOWING (×3)
Solid / Partial / Maximal cavity studies; production walls confirmed from supplied CAD

LOGO & INSCRIPTION
Butt medallion + front PALIS / OFF lens + optional back emblem + laser text

BRIEF §3 · NEW WOOD DESIGN PRICING

No-code modular builder in WordPress Admin	€0 / <2 min
10 more handle wood designs (all 4 shapes)	€100
Unit rate per extra handle design	€12

90-DAY WARRANTY & FULL OWNERSHIP

Additional software subscriptions	€0 / mo
Bug-fix warranty after hand-over	90 days
Source code, Blender & GLBs	100% Resonant

SECTION 7 · ACCEPTANCE CHECKLIST

Desktop + iOS Safari / Android acceptance	Included
All 4 blades × 4 shapes × 10 woods	Included
Server price & compatibility guard	Included
Step-by-step new-wood admin guide	Included
